SKILLS

React.js | Firebase | Styled-components | Bootstrap | JQuery | JavaScript | CSS 3 | HTML 5

PROJECTS

E-Commerce App

[Live URL](#) [Github](#)

Created this E-commerce website using React, where users can shop for available products, and can make payments which are linked with stripe, by adding their card details

- Technologies used- React | style-Components | context API | CMS | JavaScript | HTML | CSS
- Used various Array methods for filtering Products, styled each page using styled-components, fetched data from airtable CMS and makes FireBase as a backend to manage user data, and integrated stripe for payments

Real-Estate website

[Live URL](#) [Github](#)

Developed a Real-Estate website with React, where realtors, home sellers, and homebuyers can get in touch to make a purchase or rent a contract for a real estate item.

- Technologies used- React | Bootstrap | Firebase | style-Components | React Router | JavaScript | HTML | CSS
- Used Bootstrap and styled-components for styling and to make each component extremely responsive on every screen size, Added firebase authentication and DB for storing user information and made it editable.

My Personal Portfolio

[Live URL](#) [Github](#)

Designed a React base portfolio website, Which represents the work that I have created, as well as my skills and experiences.

- Technologies used- React | style-Components | CMS | context API | JavaScript | HTML | CSS
- Components are styled using Styled-Components and details are fetched from airTable CMS and managed state using context API

Movie Searching App

[Live URL](#) [Github](#)

BlissHour is a movie-searching website that allows users to search for movies by title, genre, or other criteria.

- Technologies used- React | Material UI | web APIs | React Router | JavaScript | HTML | Vanilla CSS | Axios
- Designed a Mobile-first Responsive webpage using React where I used Axios for fetching data from an API based on user search

EXPERIENCE

SYSTEM ENGINEER - On-site

BANKBAZAAR.COM | APR-2022 - DEC-2022

- Worked with various teams to gather requirements, designing and deploying new systems, and troubleshooting and maintaining existing systems.
- Maintained servers, software and operating system equipment.
- Provided needs assessment, systems analysis, troubleshooting, resolution and answering questions, resolving problems, and providing training on how to use systems.
- Managed users with AD and granting access for networks with DHCP entries
- Collaborating with other IT professionals like system administrators, network engineers, InfoSec and SREs to ensure that systems are integrated and working together effectively.

EDUCATION

Full Stack Development (MERN)

Nov 2022 - Jul 2023

Skill safari, coimbatore

- Skill Safari's Alchemyst program is an immense hands-on curriculum with focus on Computer Science, Software Engineering and Web Development.

B.CA (Bachelor of Computer Application)

Jun 2017 - May 2021

D.R.B.C.C.C Hindu college, Thiruvallur

- First class with Distinction - 71%
